For many years Richmond has needed a handsome family hotel, such as the lefters will be, for tourist parties basing to and from Florida and the South. Such a demand will be supplied by the Jefferson, which now begins to live some idea of its specious dimensions. The foundations are made of some idea of its spacious dimensions. The foundations, however, are more than half complete, and the Main-street end is now ready for the first tier of beams. I had a talk yesterday with Mr. P. B. Polhemus, who has complete charge of the affairs at the structure. He is assisted by Mr. W. H. Campbell. Mr. Polhemus said that he was very much gratified at the progress made during the past two months; that the heavy character of the work in laying the foundations for so large a structure, made it absofor so large a structure, made it abso-lutely necessary to consume a great deal of time in the labor, but that with good weather very rapid headway would be weather very rapid headway would be made in future. Matters were being pushed forward with all possible speed, however, and a very large force of hands were actively engaged in getting things in shape for commencing the brick work proper, which he thought would be not later than December 15th. He stated that later than December 15th. He stated that
the progress made since the first ground
was broken was fully up to his expectations, and had been more rapid than any
similar work in Richmond. Their purpose was to open the hotel within the

THE ART OF WRESTLING. It Finds Many Admirers in the Gymnaslum of the Y. M. C. A.

The gymnasium of the Young Men's Christian Association has taken upon self many new features this season, in and short-hell drill, with hoop and flag and short-bell drill, with hope and and arill for the juniors. As wrestling is one of the most important exercises, a few hints on this art will be appreciated by those who have already begun to study this means of exercise.

The sport is not an easy one, and much harm can be done if the work is not properly directed. The members of the gymnasium are thankful to say that Professor Schatzel is a competent teacher along this line, and is combining his technical lessons with an intelligent comrehension of each member's physique. As a recognized sport or pastime, wrest-

ling is of comparatively recent origin in this country. It is, however, now making rapid strides forward. As a tissue-maker, a blood-stirring exercise, there is no in door sport equal to it. It stretches every muscle, builds up flat chests, strengthens unsteady arms and legs, and gives the wrestler coolness, determination and judgment-requisites which are an absolute necessity to the well-formed and successful athlete. It is also a desirable training for foot-ball, combining patience, quickness and strength, which are essential to both the wrestler and the footbail player.

Wrestling as a means of developing the

muscles and perfecting the human frame, takes precedence over boxing, running, jumping, swimming, bleycling or rowing, as it gives abundance of work to those participating in its pleasures, and, unlike the other sports, brings into play all the muscles of the body simultaneously. Boxing develops the shoulder muscles; rowing, forearm and back; running and cycling strenthen the limbs, and also have a tendency to increase the lung-power; swimming gives healthful exercise with-out any superfluous physical exertion; but wrestling combines the whole of the foregoing athletic qualities. There is scarcely a muscle in the body which is not called into action. Therefore, as a means of all-around development, wrestling stands pre-eminent in the category of sports and

THE EPPS RESOLUTION.

OLD DOMINION CLUB DISCUSSED THAT MEASURE AT A MEETING.

Hon R. Taylor Scott Will Speak in Richmond Shortly-Colonel O'Ferral; and Major Kent Written To.

The Old Dominion Democratic Club held a well-attended meeting at their club rooms, corner Nineteenth and Main streets, last evening,

As was previously announced, the question of electing the heads of the municipal department by the vote of the people was the question before the club for discussion, and if the Old Dominion Club is a fair sample of public sentiment, the city of Richmond is largely in favor of this method of electing her officers. The basis of the discussion was a reso-

lution offered by Mr. Henry Cohen in line with that offered by Mr. John E. Epps in the Common Council. The resolution was prefaced with a declaration setting forth that the election of the city officers was a privilege formerly enjoyed by the people, which had been wrested from them; that it was undemocratic, and that many of the officers now in position held the offices against the will of the people, drawing exorbitant salaries, which tend to cripple the finances of the city and "therefore, be it resolved, that the drawing exorbitant salaries, which Old Dominion Democratic Club urge the City Council to recommend to the Legis-lature an amendment to the city charter providing for the election by the people of the following city officials: City engineer, superintendents of water works, almshouse and fire alarm, chier of police, chief of Fire Department, and the Boards of Fire and Police Commissioners."

An amendment offered by Mr. Chris Mannier are market by the Police and Fire

Manning exempting the Police and Fire Commissioners, chief of fire department and superintendent of the almshouse was lost, and the original resolution was adopted by a vote of 14 to 11.

Differences of Opinion, The vote, however, included only a small portion of those present. While the question was pending it was variously discussed, and strong differences of opinion were developed. Epps, the originator of the Council

resolution, was present, and was called on to speak. He declined to discuss the mat-ter, saying that he had simply dropped in to hear the opinion of the club on the Captain John A. Curtis opposed the reso-

lution on the ground of its inexpediency in a State canvass, declining to say whether he was for or against Mr. Epps' resolution, until after the State election, when it would be proper to take up local

Retrenchment and Reform.

Captain R. E. Frayser was called on and made a vigorous speech in favor of the Epps resolution, showing that pre-vious to 1861 all the heads of departments were elected by the people, and that the city was then successfully and prosperously governed.

He especially dwelt on the necessity of retrenchment and reform in the conduct of the municipal government, in proof of which he read a statement from the Auditor's report of January 1, 1833, and a later statement from the Auditor showing the bonded debt of the city at that detect the conduct of the city at that

Mr. Epps Take the Floor. Captain Frayser's remarks directed towards Mr. Epps, succeeded in bringing that gentleman to his feet. He said that he offered the resolution in the Council with the most honest intent, and called heaven to witness that he had no man or set of mer in his mind at the time; that the matter had reached a greater scope than he had dared to hope, and he was perfectly satisfied that it was not only a popular move, but that not less than seven-tenths of the voters

of Richmond were in favor of it. Mr. Epps said further, that he thought his resolution would pass the Common Council, but he was afraid it would be hung up in the Board of Aldermen, as he had heard several of the members of that body say that they were

This, Mr. Epps disclaimed forcibly, and charged that any one who said he so intended it was a liar.

Mr. Bowden Takes Issue. Mr. George E. Bowden, member of the Board of Aldermen took issue with Cap-tain Frayser for coupling the city finances and the election of the city officers together, saying that the Council was alone responsible for the debt incurred by the city, and no matter how the heads of departments were elected it would not

affect the finances.

At the close of the discussion a number of speeches were made on general political lines, and Mr. C. A. Boyce, a young gentleman who has not yet at-tained his majority, made an address which showed a good knowledge of po-

powers of no mean degree.

Mr. Hughes, ex-president of the club,

READS THE RIOT ACT.

Editor Henry Watterson Predicts Disaster to the Democrats.

LOUISVILLE, KY., Oct. 19.-Editor Henry Watterson, of the Courier-Journal, in a two-column leader this morning, reads the riot act to those southern senators who have obstructed silver repeal, and predicts disaster for the Democratic par-

ty. He says:
"The spectacle of an extra session, and more particularly the scenes of the last few days and nights, are enough to call few days and nights, are enough to call the dead to life in defence of beleagured interests, and the departing glory from a clique of southern senators obsequiously serving the combine of silver mine owners, using their experience and such wits as are left them to obstruct the will of the people as it was never obstructed before, is precisely as if their own dear lives were at stake.

Perhaps the immolation of Grover Cleveland may be a retribution upon the Democratic party for nominating and

Cieveland may be a retribution upon the Democratic party for nominating and electing him president, and perhaps it may desiroy the party outright, perhaps it is even the will of God for evil to come to pass that good may follow, but guilty ones will not escape. That is one comfort amid the desolation that has enveloped Democratic opportunities, and the irretrievable disgrace, which has fallen upon the Democratic party, in havlen upon the Democratic party, in hav-ing approvingly to submit to the wise rebuke of a Republican statesman, and that statesman John Sherman."

Th constitution's R ply, ATLANTA, GA., Oct. 19.—Replying to the ciract from Mr. Watterson's editorial in the Courier-Journal, threatening southern senators and predicting party dis-aster because they held out against the gold standard, the Constitution of tomorrow morning will say:

"We can heartily sympathize with our contemporary's wrathful protest against delay, and with his anxiety for our beleagured interests, but right here our pathways diverge. We are not looking to John Sharman, for counsel or wise to John Sherman for counsel or wise re-buke, nor can we regard the southern solver senators as obstructionists when every telegram that comes from Washing-ton tells the story of their earnest efforts to secure a compromise and of their eagerness to meet their brother Democrats in a caucus with a view to adjusting their differences, while the antiadjusting their differences, while the anti-silver senators are secretly organizing the caucus and intimating that if they go into it they will not be bound by it. This plainly shows who the real ob-structionists are, and the country will hold the men responsible who refuse to consider a compromise and vigorously oppose the time-honored Democratic meth-od of restring together and agreeing upon od of getting together and agreeing upon a common basis for the sake of party harmony."

Mr. Cullingworth will surely get the appointment.

On last Saturday General Fitz. Lee called by appointment on President Cleveland. His train was late, and the President waited for him before driving out to this country residence. They had about an hour's talk. It is understood that Virginia appointments were under consideration, and the result of the conference was very satisfactory to the General and the Virginia Democratic leaders.

News and Courier Comment.

CHARLESTON, S. C., Oct. 19.—Commenting on the Atlanta Constitution criticism of Henry Watterson's review of the silver struggle in the Senate, the News and Courier will say to-morrow:

It prefers to train with Peffer to follow the path blazed out by the silver senators, to stand in with the miners who want to force the government to buy what they have to sell at a better News and Courier Comment.

price than they can get for it in the open market, to tack the South onto the tall of the free silver kite.

tail of the free silver kite.

We are not surprised that the Constitution should choose such company. The compromisers of which it speaks have all been, in this fight of mine owners, in favor of continuing, in some form or other, the vicious policy which has brought the country to the verge of bankruptcy. The anti-silver senators are pursuing the only patriotic and honest course left open to them. They should not go into any caucus in the interest of cheap money. "Party harmony" at the cheap money. "Party harmony" at the expense of party honesty would be dearly bought. The southern senators who are fillbustering against the unconditional repeal of the Sherman law are wrecking the Democratic party. The rest of the country can stand it if the South can.

A YERY SHOCKING ACCIDENT. Young Bernard Jones Crushed to Death Beneath on Engine.

Charles P. Jones, was almost instantly killed at the Chesapeake and Ohio railway crossing on Washington street near where the old elevator formerly stood. Young Jones had been riding on the tender of shifting engine No. 29, and had been ordered off several times. At the time of the accident he was riding on

COUNSEL TO MEN OF LARGE AFFAIRS.

During such a period of financial disturbance as the present, you find it nessessary to concentrate all your talents and energies on the management of your affairs

You cannot safely delegate the work to another. At this time any one else, no matter what his ability, would be unable to successfully conduct your business, or protect your investments, as well as you can.

But there is a CHANCE that you may at any moment be FORCED thus to turn your affairs over to the management of another-namely, in the event of your death.

Remember that executors often think more about avoiding risks and protecting themselves than of carrying out the spirit of the testator's views. They generally lack experience in the business they are trying to

This inexperience and possible lack of interest may cost ten or fifteen per cent. of the value of your estate,

You cannot but recognize the truth of this statement; nevertheless, you can guard against this loss by assuring your life for the amount which in your judgment your executors would waste in winding up your estate.

You can easily, by economizing a little in your

living expenses, pay from your income the premium on a policy for \$50,000 or \$100,000, issued by the strongest financial institution of its kind in the world, the Equitable Life Assurance Society of the United States, 120 Broadway, New York.

If you then chance to die, your executor will be INSTANTLY in the possession of \$50,000 or \$100,000 of CASH IN HAND; and ready money will have a FOURFOLD value if DEATH COMES. On the other hand, if you live, and take your assu-

ment plan, you will Yourself reap a rich reward on maturity of the policy. The following is an illustration of one out of many

rance (for example) on the twenty-year Tontine Endow-

such policies maturing in 1893: EXAMPLE.

LETTER FROM A POLICY-HOLDER IN THE EQUITABLE.

In response to your request that I should give you for publica-tion the results of Policy No. 81,524, which matured June 2, 1893, I beg to make the following statement: The policy was for \$1,000, issued twenty years ago on the Endowment plan. The amount paid in premiums was \$953.60.

Among other options the following methods of settlement are

First—Cash surrender value, \$1.597.04; equal to a return of all the premiums paid, with interest exceeding 6 per cent. per annum. Second-A paid-up policy of life assurance for \$3,858. Third-A life annuity of \$112.58.

June 2, 1893. N. B .- The writer of the above letter has applied to the Equitable for a new policy for five times the amount of the original

TO SELL OR NOT TO SELL?

RICHMOND, VA.

THAT IS THE QUESTION. Whether it is more prudent in the Furniture Dealer's mind to suffer the constant visits of his impatient creditors, or to dispose of part of his stock at a sacrifice, and by that disposition pay them. This is exactly what I propose to do. I carry the largest stock of HOUSEHOLD FURNITURE in Virginia, and until the McKinley Bill, the herman Bill, Dollar Bill, Buffalo Hill, or some other Bill brings better times to the country, I will sell my goods at fully 25 per cent. less than I would have done three months ago. You need not take my word for it; visit every other Furniture nouse in the city, examine their goods, get their prices. But if you know what is good for you, you will not buy till you have ascertained how much lower my prices are for a superior grade of goods. Whether it is more prudent in the Furniture Dealer's mind to suffer the constant

the tender, when in some way he lost his footing and fell beneath the wheels, which passed over him, nearly severing the head from his body, and otherwise mangling him. He was dead in a few moments. Several people ran to his assistance, but were too late to be of service. Coroner Taylor was summoned to the scene of the accident, and ascertained the facts in the case, but will hardly hold an inquest, as he was of the opinion that no one was responsible for the accident, the unfortunate boy having been warned several times. Some members of the family of young Jones took charge of the remains, which were turned over to James McDonough's undertaking establishment, where they were prepared for burial. The funeral will take place from the residence of the parents, on Washington street, this afternoon at 4 o'clock.

The accident, while much to be respectived was one of those misfortunes for the tender, when in some way he lost his ton street, this accident, while much to be re-gretted, was one of those misfortunes for which no one was to be blamed.

Funeral of Mrs. George Dobyns. The remains of Mrs. George H. Dobyns,

who died in New York Monday after-noon, arrived at the Byrd-street station at 8:30 yesterday morning and were taken immediately to Hollywood for interment. Mrs. Dobyns was Miss Margaret Pollard, and only child of Mr. Thomas F. Pollard, of this city.

The following were the pall-bearers:
James T. Parkinson, Charles L. Brown,
W. Bailey Saunders, R. W. Powers, Jr.,
Leslie Martin and Taylor Curtis.

A Children's Enterta ament. A novelty in entertainments is an-nounced for to-day from 4:30 to 6 P. M. at the lunch rooms of the Woman's Christian Association.

It is called a "Children's Frolic," and is to be a cake walk for the purpose of raising funds to sustain the rooms.

The children will give the show, and children are especially invited, the price of admission being only half a dime.

The grown folks will be welcome also.

The water is to be used in their new coid-storage building in the rear of their pork-packing establishment on Fifteenth and Cary streets. At twenty feet below the surface rock was struck, and drilling had to be continued until the depth mentioned was reached. The work has been going on reached. The work has been going on ever since last June. An alarm of fire was turned on at five minutes past 6 o'clock yesterday evening at the corner of Madison and Broad

They Give Their Reasons.

Perhaps some of our readers would like to know in what respect Chamberlain's Cough Remedy is better than any other. We will tell you. When this Remedy is taken as soon as a cold has been contracted, and before it has become settled in the system, it will counteract the effect of the cold and greatly lessen its severity, and it is the only remedy that will do this. It acts in perfect harmony with nature and alds nature in relieving the lungs, opening the secretions, liquefying the mucus and causing its expulsion They Give Their Reasons. the lungs, opening the secretions, liquefying the mucus and causing its expulsion from the air cells of the lungs and restoring the system to a strong and healthy condition.
